The New Member Journey

CMQCC MDC Maternal Data Center

1 Interested hospital sends email to datacenter@cmqcc.org indicating interest in joining the CA Maternal Quality Care Collaborative (CMQCC)

2 CMQCC schedules a webinar presentation for the hospital, featuring a brief demonstration of the Maternal Data Center (MDC)

3 CMQCC sends along the appropriate legal agreement(s) for review and signature

4 Hospital reviews and returns completed agreement(s)

Hospital confirms they want to move forward with membership!

5 CMQCC schedules the first orientation for the hospital team (ideally clinical, quality, and IT staff) to provide an overview of the benefits now available to them via CMQCC, with a focus on the MDC.

On the call, we will discuss:
- MDC roles and user management: Hospital must decide who the Primary Administrator will be
- Data requirements for file uploads: Hospital must prepare core data file(s) that ideally contains at least one year's worth of data

6 Hospital sends CMQCC an email confirming that they have the initial required file(s) ready for upload and have chosen their Primary Administrator

7 CMQCC works with the Primary Administrator to get them logged in and adding users to the MDC, including the individual(s) who will be responsible for data entry

Files are uploaded!

8 CMQCC schedules a 90-minute call with the hospital team (ideally clinical and quality staff) to provide an in-depth orientation to the MDC using the hospital's own data

9 Hospital moves forward in uploading data on a monthly basis

**Need additional help or assistance throughout the process?**
